Prospectus

FDPPi (Foundation of Data Protection Professionals) is a pioneering institution in India which has initiated a structured program to develop professionals for the Data Protection Era that is coming up in India.

FDPPi is a Section 8 (Not for profit) Company limited by guarantees. It is an organization of the professionals, by the professionals for the professionals who work in the Data Protection domain, which includes IT, IS and Legal professionals besides data governance professionals. It is promoted by Na.Vijayashankar, a pioneer in Cyber Laws in India and managed through Regional councils in different cities in Bengaluru, Mumbai, Delhi and Chennai by experienced professionals.

Started in September 2018, FDPPi has already established a comprehensive Certification Program for Data Protection Professionals consisting of 5 modules each of which will be independent and collectively lead to a Certificate titled "Certified Expert Data Protection Professional" (CEDPP).

This is a unique concept where for the first time a Certification program will create awareness and skills in the knowledge and skills required by a Data Protection Professional.

The Five modules are as follows.

Module-I: Indian Data Protection Laws

Module-G: Global Data Protection Laws

Module T: Technology Essentials for Data Protection Professionals

Module A: Audit Skills for Data Protection Professionals

Module B: Behavioural Skills for Data Protection Professionals

Currently two batches of Module I have already been completed and one of the last programs in the current series is being planned as week end online program on 6th, 7th, 13th and 14th June consisting of two sessions of 90 minutes each on each of the four days, totaling upto 12 hours.

In the month of July Module-G is scheduled to be launched. Other modules will be introduced in due course.

The Course is presently designed on the basis of the Personal Data Protection Bill 2019. All the participants of the program would be provided a free online “Bridging Session” when the Bill is finally passed into law to appraise of the changes if any between the current version and what would come up finally in the Act when passed.

Appropriate Course material will be made available.

After the training there would be an online examination based on which the Certification would be provided by FDPPI.

Who should take this Course?

This course is meant for any person who is dealing with “Personal Data” and includes professionals in IT and non IT companies, legal professionals and students of law in the final year of LLB course or after graduation.

How the Course is conducted:

This is an online course in which a series of lectures will be conducted online like a webinar. Students need to attend the webinar through internet either through computer or through mobile as and when the classes are held.

Reading material would be provided in the form of presentation copies, online articles and other supplementary material.

Course Contents:

1. Evolution of Privacy Law in India. (ITA 2000-ITA 2008-Puttaswamy Judgement.Etc.) and
2. Understanding the Concept of Privacy and its relation with Data Protection
3. Applicability, Exemptions, Transitional Provisions
4. Data Principal’s Rights and Data Protection Obligations
5. Grounds of Processing
6. Transfer of Personal data outside India.
7. DPA and DPO
8. Compliance Obligations
9. Penalties and Offences and Grievance Redressal mechanism
10. Data Protection Challenges under New Technologies
11. Data Governance Framework
12. Interactive discussion

Admission Procedure:

At the time of registration, prospective students have to make the payment of the Course fee along with the full particulars of the Student such as his/her Name, Address, and Qualification etc.

Course Fee:

The course fee is a total of Rs 15000/- comprising of Rs 5000 for lifetime membership of FDPPI (For non members only), Rs 5000 for Examination and Rs 5000 for training. Bulk bookings by Corporates or Educational Institutions may carry concessions. (Contact Naavi for details).

Certification

Certificate would be provided by Foundation of Data Protection Professionals and Cyber Law College jointly after an online test.

Payment Procedure:

Preferred payment is through online through PayU in this [Payment Link](#)

(For clarifications if any, contact fdppi@fdppi.in)

Sponsored/Referred by FDPPI

If any of the participants is referred by any of the existing members of FDPPI ([Foundation of Data Protection Professionals in India](#)), a Cash back of Rs 1000/- would be made available to the participant.

Corporates would be provided a special discount, details of which may be obtained by email.

The registrations will close by Friday 5th, June 2020.

Faculty:

The Programme will be conducted by Na.Vijayashankar, (Naavi) Director of Cyber Law College and will be delivered by him. Profile of Naavi is given below.

Profile of Naavi:

Na.Vijayashankar, more popularly known as Naavi, is Techno Legal Information Security and Data Protection Consultant based in Bangalore, India.

Naavi is a pioneer in the field of Cyber Law in India being the author of the first book (1999) and first E-Book (2003) on Cyber Laws in India. He has also authored a book titled “Cyber Laws, Corporate Mantra for the Digital Era” and “Cyber Laws Demystified” as also the Kannada book “Antarjaala Aparadhagalu”. Several of his e-Books are available online through www.naavi.org.

Naavi is also the author of “Personal Data Protection Act of India (PDPA 2020) released in January 2020 based on the proposed Personal Data Protection Bill 2019.

Naavi is the founder of www.cyberlawcollege.com which is the pioneering Virtual educational institution in India dedicated to Cyber Law Education. Naavi is also the founder of www.naavi.org the premier Cyber Law Portal in India and several other associate services including www.ceac.in (Cyber Evidence Archival Center).

Naavi has decades of senior Corporate executive experience behind him and has conducted hundreds of Training sessions to professionals of various disciplines such as Bankers, Lawyers, Chartered Accountants, Engineers, Software Professionals, E-Governance officials, Police and Judicial Officers through workshops and in-house training programmes in Cyber Laws, Cyber Crimes, Information Security and related areas.

Naavi is also a guest/visiting faculty in a number of academic and professional institutions including the National Law School of India, NALSAR, Hyderabad etc.

Naavi is a pioneer in India on the concept of Cyber Law Compliance and has developed information security prescriptions for LPOs in India.

Naavi is also the Founder Chairman of Digital Society of India, Founder Secretary of Cyber Society of India, Founder Chairman of the Foundation of Data Protection Professionals in India and a recipient of the PR Syndicate-Dena Bank Award of Excellence in Public Life.

Naavi is a thought leader and has pioneered the concepts such as **“Three Dimensional Approach to Information Security”**, **“Theory of Information Security Motivation”**, **“Pyramid Model of Information Security Prioritization”**, **“Personal Data Protection Standard of India”**.

More recently, he has pioneered the **“Theory of Data”** to provide a greater clarity to the concept of Data and Data Protection through three supporting hypotheses namely the **“Definition Hypothesis”**, **“Life Cycle Hypothesis”** and **“Ownership hypothesis”**.
